provided that more than two pumps shall not be required on ships whose keels were laid before the 1st February 1931. Each such pump shall be capable of providing a full supply of water, in accordance with the requirements specified in sub-rule (1) of rule 6, to one or more ranges of water service pipes. The service pipes shall be of metal, with branches so arranged that the fire hoses may be coupled thereto, and two powerful jets of water may be rapidly and simultaneously brought to bear, by means of single lengths of hose from each branch, upon any part of each deck space occupied by passengers or crew, when the water-tight and fire doors are closed. Where the water service is on an exposed deck, the branches necessary to comply with the foregoing requirements shall, in the case of vessels whose keels are laid after the 1st February 1931, be fitted on both sides of the deck:

Provided that the main engine sanitary pump shall be allowed to count as one of the pumps required to be available if it is so fitted as to be capable of serving the purpose of such pump.

(2) Every ship shall carry an efficient portable hand pump with suction and hose complete.

(3) Portable chemical fire extinguishers of an approved pattern shall be carried in every compartment wherein passengers and crew are accommodated. There shall be two extinguishers in each such compartment, and, when passengers are carried in enclosed spaces above the upper deck, there shall be at least one extinguisher on each side of such spaces at intervals of not more than 60 feet.

Cargo spaces. 4. On every ship arrangements shall be made whereby two powerful jets of water may be rapidly and simultaneously directed into any cargo compartment, and, save in the case of a ship of less than 1,000 tons gross tonnage, satisfactory means shall also be provided whereby steam or other gas incapable of supporting combustion may be conveyed to each such compartment.

Machinery and bunker spaces. 5. (1) Arrangements shall be made in ships which use coal as fuel whereby two powerful jets of water can be rapidly and simultaneously directed into any part of the coal bunker spaces, boiler rooms and machinery spaces.

(2) In ships in which the main boilers are oil fired, the following additional arrangements shall be made :—

(a) The fire hoses in the machinery spaces shall be provided with additional conductors suitable for spraying water on oil without undue disturbance of the surface.

(b) In each firing space there shall be placed a receptacle containing 10 cubic feet of sand, sawdust impregnated with soda, or other approved dry material; and scoops for distributing the same.

(c) In each boiler room, and in each of the machinery spaces in which a part of the oil fuel installation is situated, there shall be provided two approved portable chemical extinguishers of a type discharging froth or other approved medium suitable for quenching oil fires.

(d) Means shall be provided whereby froth may be rapidly discharged and distributed over the whole of the lower parts of any boiler room, or of any machinery space in which oil fuel units or settling tanks may be situated. The quantity of froth which can be discharged should be amply sufficient to cover up to a depth of six inches the whole area of the plating formed in any one compartment by the inner bottom plating, or by the shell plating of the vessel if there is no double bottom tank. If the engine and boiler rooms are not entirely separate, and fuel oil can drain from the boiler room bilges into the engine room, the combined engine and boiler rooms shall be treated as one compartment. Provided that if other effective means are available for combating fire and the apparatus can be controlled from outside the compartment in which fire may occur, the Governor General in Council may exempt from the requirements of this clause ships whose keels were laid before the 1st February 1931 on which it would not be reasonable to require the fitting of large froth installations.

(e) There shall further be provided one extinguisher of at least 30 gallons capacity in ships having one boiler room, and two such extinguishers in ships with more than one boiler room. These extinguishers shall be provided with hoses on reels suitable for reaching any part of the boiler rooms and spaces containing oil fuel pumping units: Provided that the Governor General in Council may permit the fitting of any other equally efficient apparatus in place of the 30 gallons extinguisher.

(f) All containers and valves by which they are operated shall be easily accessible and so placed that they will not readily be cut off from use in case of fire.

Pumps. 6. (1) In all ships each of the steam or equivalent pumps shall be capable of supplying simultaneously two powerful jets of water for use in any part of the vessel. The pumps shall be worked by steam or by some other equally efficient motive power, and shall always be available for immediate use at all reasonable times when the vessel is in commission.

(2) All steam or equivalent pumps shall be provided with effective escape valves suitably adjusted and so placed as to prevent excessive pressure in any part of the water service system.

Water service pipes. 7. The main water service pipes shall be made of wrought material, and, if of iron or steel, shall, in the case of vessels whose keels were laid after 1st February 1931, be galvanized. They shall be sufficiently large in diameter for the adequate supply of water to the fire hoses which shall be secured to them for simultaneous operation. The branches shall be so placed that the fire hoses may be conveniently coupled to them, and cocks or valves shall be fitted where required to admit of any hose being removed, if desired, while the pumps are at work.

Fire Hoses. 9. (1) The fire hoses shall be of leather, seamless hemp, flax canvas of first class quality, or other approved material. They shall be provided with suitable metal unions and conductors, and with gooseneck connections where necessary.

(2) A sufficient number of fire hoses with attachments and conductors shall be suitably distributed about different decks in the ship so as to be readily available for rapid use in any space occupied by passengers or crew, and not less than three hoses and attachments shall be provided in any vessel.

(3) The fire hoses and the conductors, and other apparatus referred to in sub-rules (1) and (2), together with coupling wrenches if required, shall be kept ready for use in conspicuous positions near the water service hydrants or connections. They shall be used only for the purposes of extinguishing fires or for testing the fire extinguishing apparatus at fire drills and surveys, and not for washing decks.

Arrangements for steaming or other gas into cargo spaces and boiler rooms and closing valves or cocks in case of fire. 9. Where provision is made for the injection of steam or other gas into the cargo spaces and boiler rooms for fire extinguishing purposes the necessary pipes for conveying the steam or gas to holds or other compartments shall be provided with control ling valves or cocks readily accessible from the deck and so marked as to indicate clearly the compartments to which the pipes are respectively led. Suitable provision shall be made for locking these valves or cocks so as to prevent inadvertent admission of the steam or gas to any compartment. If any pipe is led to a space to which passengers have access, it shall be furnished with an additional stop valve or cock also capable of being locked.

Provided that the Governor-General in Council may permit the substitution of any other equally efficient safety device giving the requisite security from danger.

Fluid Fire Extinguishers.

10. (1) A sufficient number of approved portable fluid fire extinguishers discharging water shall be provided in accordance with the requirements of rules 3 and 5. For ordinary purposes not specifically referred to in these rules, the capacity of *portable* extinguishers shall be not more than three imperial gallons, and not less than two imperial gallons, provided the Governor General in Council may, in his discretion, permit the use of an extinguisher of less than two gallons capacity in special circumstances.

(2) An approved type of portable extinguisher discharging a medium other than water may in the case of not more than 20 per cent of the total number of extinguishers required to be carried be substituted for the ordinary water-discharging extinguisher.

(3) The portable hand fluid fire extinguishers (apart from those supplied in boiler rooms, etc., specially for use in connection with oil fuel) shall not be of more than two types in any one ship.

(4) All extinguishers, whether portable or otherwise, shall be placed in positions where they are readily accessible.

Smoke Helmets and Safety Lamps.

11. At least two smoke helmets and two safety lamps of approved types shall be included in the fire extinguishing equipment of every vessel and the helmets shall be stowed separately. The members of the crew shall be practised regularly in their use.

Emergency Appliances.

12. The necessary emergency fire appliances such as knives, axes and crowbars, shall be kept in a place readily accessible at all times from different parts of the ship.

Fire Drill.

13. Fire drill shall be observed at least once a week on board all vessels and during such drill all fire appliances shall be put into use and the fact entered in the Log Book. The great utility of woollen or asbestos blankets for smothering small fires shall always be impressed on all persons taking part in a fire drill.

Custody of fire apparatus and fire patrol.

14. (1) The fire apparatus shall be placed by the master under the special charge of one of the principal officers of the ship and of the ship's carpenter, who shall both be held responsible that the apparatus is kept in a state fit for immediate use. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire.

(2) A continuous patrol system shall be organized so that any outbreak of fire may be promptly detected.

Stowage of cargo and disposal of inflammables.

15. (1) The cargo of every ship shall, before she leaves port, be properly stowed away, and the decks shall be cleared of any loose straw, hay and other inflammable material. Any goods which are dangerous by reason of their inflammability or liability to explosion shall be stowed, subject to the provisions of any law or rules in force, in such manner as to safeguard the ship from danger of fire or explosion. The tanks of motor cars carried on the ship shall be drained before loading.

(2) Before a ship leaves port, every passenger shall deliver up any lucifer matches, gun-powder or other inflammable article in his possession.

Use of naked lights and spirits.

16. Naked lights shall not be used in the holds or store rooms or between decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Casks or drums containing spirit shall not be opened in the hold but shall be hoisted on deck for the purpose.

17. In the case of a small vessel under 200 feet in length when it is shown to be unreasonable to require full compliance with any of the provisions of these rules, such relaxation shall be granted as the Governor General in Council may, having regard to all the circumstances of the case, direct.

Penalty

18. Whoever does any act in contravention of any of the provisions of these rules shall be punishable with fine which may extend to two hundred rupees.

No. 504.—The following resolutions of the Government of India are republished :—

HOME DEPARTMENT.

POLITICAL.

Delhi, the 18th December 1914.

No. 2951–2964.—In supersession of the orders contained in the Resolution of the Government of India in the Home Department, No. 2831–2842, dated the 8th December 1899, the Governor-General in Council is pleased to issue the following instructions with regard to certificates of identity,

2. Every native of India who contemplates proceeding out of India to foreign countries is strongly urged, before leaving, to furnish himself with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town and in the town of Rangoon, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. In the case of a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town and in the town of Rangoon, the Commissioner of Police) or Political Officer as the case may be.

Appeals for assistance by destitute Indians who desire repatriation and by students who owing to embarrassed circumstances are unable to complete their course of education cannot be dealt with satisfactorily unless the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them social and other attentions.

Those who are desirous, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India, in lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject and the production before authorities outside India of a certificate of identity, unless supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

Form of Certificate of Identity.

1. Name of applicant .....

2. Father's name and caste .....

3. Residence.....

4. Age of applicant.....

5. Nationality of applicant *.....

6. Social or pecuniary status of father (or guardian).....

7. Date or probable departure of applicant from India.....

8. Object of applicant's visit to England (Europe).

Signature of District Officer (or a Presidency Town, the Commissioner of Police or Political Officer, or head of school or college.†)

Dated.....

* I.e., whether a British subject by birth or by naturalization (or a subject of a Native State).

† Countersignature of the District or Political Officer should be obtained on certificates signed by heads of schools or colleges.

NOTE.—Holders of certificates of identity intending to apply subsequently in England or elsewhere for a passport to visit a foreign country are warned that no person is entitled to a passport as of right on the sole ground that he is a British subject. The production of a certificate of identity, therefore, will not ordinarily be sufficient to secure the grant of a passport, unless it is supplemented by documentary evidence of respectability, endorsed by a Local Government or other authority competent to issue passports in India, certifying that the holder is a fit and proper person to receive a passport.

Simla, the 2nd August 1916.

No. 6687.—The following letter received from the Government of the East Africa Protectorate is published for general information :—

THE SECRETARIAT, NAIROBI,
EAST AFRICA PROTECTORATE,
June 27, 1916.

Sir,

I have the honour to inform you that the Government of the British East Africa Protectorate has recently had under consideration the desirability of enforcing more strictly the provisions of the Immigration Restriction Ordinance, 1906, and the Immigration Restriction Amendment Ordinance, 1910, copies of which are enclosed herewith.

2. Section 11 of the original enactment provided that any person appearing to be a prohibited immigrant under section 5 (a) * might be permitted to enter the Protectorate on payment of a deposit according to nationality, † In the course of time this restriction was shown to be acting as a deterrent in the case of persons who might well be admitted to the country, and the amending Ordinance was promulgated whereby the Immigration Officer was empowered to accept security in lieu of the deposit.

3. In the great majority of cases no arrangements for this security are made prior to embarkation and in consequence such persons have hitherto been allowed to land in order that they may be given the opportunity of finding a surety. This concession has led to abuse and is in itself objectionable inasmuch as the deposit prescribed by section 11 of the Ordinance of 1906 is payable before landing and if this section is read together with section 3 (1) of the amending Ordinance of 1910, it is clear that the demand for security must also be complied with before landing.

4. The Government has therefore decided that all immigrants should either make the necessary deposit, or provide the security required, before leaving the ship on arrival in port. The strict enforcement of this regulation will take effect as from the 1st of September 1916 and I have the honour to request that steps may be taken to make this procedure known in those districts from which immigrants to British East Africa usually arrive. Persons who cannot deposit the necessary sum or have failed to find the requisite security will after that date be sent back to India, and the Government of this Protectorate will not hold itself responsible for any expenditure thus incurred.

I have the honour to be,

Sir,

Your most obedient servant,

C. C. BOWRING,
Chief Secretary to Government.

Local Governments and Administrations are requested to make the information contained in the letter as widely known as possible, particularly in places from which emigration to British East Africa is believed to be most common. Intending emigrants should also be warned of the risks they run in proceeding to the Protectorate if they are unable, before landing, to deposit the sum of Rs. 50, or to comply with the demand for the requisite security in lieu of the deposit.

* The section prohibits the immigration of any person without visible means of support or any person who is likely to become a pauper or a public charge.

† The deposit required from a native of India is Rs. 50.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M. ON WEEK DAYS; SATURDAYS, 11 A.M. TO 1 P.M.

All communications relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents

and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, the Indian Patents and Designs (Amendment) Act, 1920, and the Indian Patents and Designs (Temporary Rules) Amendment Act, 1920, together with current regulations and instructions. *These should be consulted before an application is made to the Controller of Patents and Designs, 1, Council House Street, Calcutta.*

3. *Advice.*—The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular Agent, or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provincial patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British Possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made on the patent offices in the countries concerned.

5. *Fees* are payable in cash and must be received in the Patent Office within the time allowed by the Acts. Stamps will not be received in payment of fees.

In exercise of the powers delegated under clause (3) of section 4 of the Madras Survey and Boundaries Act, VIII of 1923, the Board of Revenue hereby appoints the Head Surveyor and Deputy Surveyors employed in connexion with the maintenance of survey stones in the Sivaganga Estate, Ramnad district, to be survey officers under the Act.

E. RAMAN NAYAR,

Board (Land Revenue and Settlement),
Madras, 23rd June 1930.

No. 11.—In virtue of the powers delegated under clause XI of Government Notification No. 485, dated 13th July 1896, published on pages 1203 and 1204 of the *Fort St. George Gazette*, dated 29th September 1896, Part I, as amended by Government Notification No. 101, dated 15th March 1924; and in supersession of Commissioner's Notification No. 8, dated 25th June 1929, the Commissioner of Excise hereby prescribes the following rules for the issue, etc., of licences under section 12 of the Madras Abkari Act I of 1886, for the tapping of toddy-producing trees and for the drawing of toddy therefrom, to have effect in the following local areas from the 1st day of October 1930:—

(1) The villages in the Agency tracts specified in schedule I annexed.

(2) The rest of the Presidency with the exception of the Nilgiri district and the Wynad taluk, Anjengo, Tangasseri and the Attappadi valley of the Malabar district.

(3) The Banganapalle State.

2. Tree-tapping licences shall be issued on the applications—

(*a*) of licensed toddy shop-keepers in areas in which the toddy shops are sold by auction or licensed separately;

(*b*) of persons having the exclusive privilege of manufacture and supply of sweet toddy arrack;

(*c*) of tappers on their own application in the South Kanara district, provided that the application for licence is accompanied by an application for a permit for the transport of the toddy drawn to some particular shop and that the latter application is countersigned or acknowledged to be correct by the shopkeeper to whose shop the toddy is to be taken;

(*d*) of tree-owners generally, and of sweet-toddy tappers in the villages of the Agency tracts specified in Schedule I, in the East Godavari district, in the portion of the West Godavari district corresponding to the Narasapur, Bhimavaram, Tanuku, Ellore and Nuzvidu taluks of the old Kistna district and in the Repalle and Bapatla taluks

of the Guntur district, for not more than five trees in the case of tree-owners and three trees in the case of sweet toddy tappers for the drawing of toddy required for domestic consumption, but not for sale;

(*e*) of toddy shopkeepers or renters in the Mysore territory and in the Banganapalle State desiring to obtain toddy from trees growing in British territory;

(*f*) of toddy shopkeepers in the Pudukkottai State desiring to obtain toddy from trees in British territory provided that the application is certified or countersigned by the Salt and Abkari Inspector of the State; and

(*g*) of any member of a hill tribe whether a tree-owner or not, residing in any of the villages of the Vizagapatam district specified in Schedule II, for not more than five trees for each household for domestic consumption, but not for sale.

In cases (*b*), (*d*) and (*e*), the licences may be issued in the name of the applicant himself or of his nominee, and in cases (*a*), (*c*), (*f*) and (*g*) in the name of the applicant only.

3. Persons wishing to apply for the grant of tree-tapping licences must first pay the fees (or the first instalment thereof, as the case may be) due on account of the trees which they desire to tap, into a Government treasury, which may be either the District treasury or a Taluk treasury. Divisional officers may also empower heads of villages to receive payments on account of tree-tax and to grant receipts therefor. In the case of persons mentioned in rule 2 (*a*) and (*c*) the tree tax must be paid into a Government treasury of the taluk in which the shop is situated or to an authorized village munsif in the same taluk, and the renters concerned should affix a declaration in the applications to the effect that they have obtained a license permanent or temporary for a shop specifying also the name and number of the shop for which trees are to be marked. The shop licences should be produced before village munsifs in cases where the application and fees are presented to these officers. Pudukkottai renters, when applying for trees in British territory, must pay the full tree-tax into a British treasury at the rates prevailing in British territory.

4. (1) Applications for the grant of tree-tapping licences must be made in the prescribed form to the Inspector, Excise Department, in charge of the circle in which the trees are situated. Forms may be obtained from the Inspectors of the Excise Department and from all Tahsildars and Deputy Tahsildars and will be supplied free of charge. Applications put in by shopkeepers and tappers need not be stamped; those put in by other persons must bear a court-fee stamp of one anna. In any case, if the fees have been paid into a treasury, the application must contain a certificate of payment from the treasury officer; if payment has been made to a village head, the receipt must accompany the application. Mysore renters and shopkeepers applying for trees in British territory should pay the tree-tax into the Mysore Amildar's treasury and should present before the British Tahsildar or Deputy Tahsildar concerned, along with the application in Form T.T. 3, the receipt with the Amildar's certificate at the foot to the effect that the applicant is a person entitled to take out a tree tapping licence in Mysore. Applications from Mysore renters for licences for the tapping of trees in villages in the British territory in which there are trees belonging to Government should invariably be got countersigned by the village headman of the village in which the trees are situated in token of the correctness of the entries concerning the ownership of the trees. The tree-tax should be calculated at the higher rate if the rates are not the same on the two sides of the frontier.

(2) Applications for tree-tapping licences in the South Kanara district should be countersigned by the owner or person in possession of the trees intended to be marked in token of his consent.

5. Toddy shopkeepers in tracts adjoining the Mysore territory will also be allowed to tap trees in Mysore for the supply of toddy to their shops on payment of the whole of the tree tax in one instalment into the British treasuries and subject to such restrictions regarding permits, etc., as may be prescribed in this behalf. The rate of tree-tax to be paid in such cases will invariably be the higher rate in force, if the rate is not the same on the two sides of the frontier.

The British and Mysore Governments reserve to themselves the right to impose, in addition to the tree-tax, a rent for the use of trees belonging to them, the same when imposed being payable by British and Mysore licensees alike. The arrangements agreed to by the Madras and the Mysore Governments with regard to the issue of licences for tapping trees in either territory on the application of farmers or shopkeepers in the other do not prevent the reservation of trees in any specified area in the Madras Presidency or in Mysore with a view to afford rest thereto or for other sufficient reason and the mere payment of tree-tax into a British or Mysore treasury does not entitle an applicant to tapping licences for trees so reserved.

6. Toddy shopkeepers in British territory adjoining the Banganapalle State will be allowed to tap trees in the State on payment of tree-tax into the Koilkuntla Sub Treasury, the rate being the same as in the Kurnool district. Toddy shopkeepers in Banganapalle State will be allowed to tap trees in the adjoining British territory on payment of tree-tax to the treasury of the taluk in which the trees stand. Toddy shopkeepers in British territory adjoining the Pudukkottai State will be allowed to tap trees in that State on payment of tree-tax to that State at the higher of the rates prevailing on both sides of the frontier.

7. Persons applying for the issue of licences will be responsible to Government for all sums payable as tree-tax on account of the trees licensed to be tapped.

8. (1) Unless there are special reasons for refusing to mark the trees, the Inspector on receipt of an application will at once take steps for the marking of the trees by an officer of rank not lower than a Sub-Inspector and for the issue of the licence. The Inspector may also at his discretion refuse to comply with an application either wholly or in part, if he considers that the trees applied for are in excess of the legitimate demand of the shop. Applicants for trees shall point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so after reasonable notice, the fees paid by them shall be liable to be forfeited at the Collector's discretion.

(2) In the East Godavari district, in the Narsapur, Bhimavaram, Tanuku, Ellore and Yernagudem taluks of the West Godavari district, in the Repalle and Bapatla taluks of the Guntur district and in the villages of the Agency tracts specified in Schedule I, trees intended for the drawing of fermented toddy and those for the drawing of sweet toddy shall, as far as possible, be in separate topes or blocks.

9. Collectors may, from time to time, prescribe the minimum number of trees to be entered in an original application. They may also direct that the trees situated in one village only shall be included in an application.

10. Toddy shall not be drawn from any toddy tree, nor shall any pot be attached to any toddy tree until the tree has been marked by the proper officer.

11. For palmyra and date trees in the Presidency and for Dadasel (*Arenga Wightii*) trees in South Kanara, tree-tapping licences shall be annual, that is, in force from 1st October or any subsequent date to the 30th September immediately following, and for coconut and sago trees they shall be half yearly, that is, in force from 1st October or any subsequent date to the 31st March immediately following, and from 1st April or any subsequent date to the 30th September immediately following, except in the case of the trees which have been illicitly tapped, on which the full tree-tax may be levied.

13. The following shall be the fees payable on account of each tree for the tapping of which licence is applied for :—

District.	Coconut palms (for each half-year as defined in rule 31 above).	Sago palms (for each half-year as defined in rule 31 above).	Palmyra or date palms (for the whole year as defined in rule 31 above)	*Dadasel (Arenga Wightii)* palms (for the whole year as defined in rule 31 above).
